

KOREAN INTERNATIONAL SEMICONDUCTOR CONFERENCE & EXHIBITION
ON MANUFACTURING TECHNOLOGY 2024

KISM 2024 BUSAN

November 11 (Mon.) - 15 (Fri.), 2024

Paradise Hotel Busan & Grand Josun Busan
(Haeundae Beach) | Busan, Korea

Prof. Hyeon-Ho Jeong

(Gwangju Institute of Science and Technology,
Republic of Korea)

Hyeon-Ho Jeong is an Associate Professor at the Gwangju Institute of Science and Technology (GIST), in the Republic of Korea. He received his BEng (2010) and MEng (2011) in Electrical Engineering from Dankook University, Republic of Korea. Before starting his Ph.D., he worked at Seoul National University Medical Research Centre as a Research Assistant for a year. Then, he moved to Max Planck Institute for Intelligent Systems, Germany with a fully-funded Ph.D. fellowship and received his Ph.D. (2017) from the joint program, Max-Planck-EPFL Centre for Molecular Nanoscience and Technology. Starting in 2018, he spent about 1.5 years as a Research Associate at the Cavendish Laboratory, University of Cambridge, UK. He has broad research interests including 3D nanofabrication, micro and nanorobotics, chirality, plasmonics, and metamaterials.
