(Haeundae Beach) | Busan, Korea

Dr. Thomas Glinsner

EV Group

Dr. Thomas Glinsner is Corporate Technology Director for EV Group based at the company's headquarters in St. Florian, Austria. Dr. Glinsner joined EVG as product manager in 2000. He was appointed as Product Management Director in 2008 and Corporate Technology Director in 2014. In this role, Dr. Glinsner oversees product development for lithography, wafer bonding and nanoimprint lithography. Dr. Glinsner has authored and co-authored several technical papers and presentations on those topics. Dr. Glinsner graduated with a degree in Technical Chemistry from the Technical University in Vienna. He received his Ph.D. degree from the University of Linz, Solid State and Semiconductor Physics Department, with a thesis on the fabrication of 3D photonic crystals by nanoimprint lithography.
