

Prof. Jun Ho Lee

(Kongju National University, Korea)

Jun Ho Lee is a professor of the Optical Engineering Department at Kongju National University. He received his BSc degree from the Korea Advanced Institute of Science and Technology (KAIST) in 1994, and his MSc and PhD degrees from London University in 1995 and 1999, respectively. He had been a research professor at the Satellite Technology Research Center (SaTReC), KAIST until 2005 and has been at the Department of Optical Engineering, Kongju National University since then. His research interests include lens/illumination design, optical instrumentation, and adaptive optics for astronomical and industrial uses. He has been involved in the developments of various semiconductor MI tools applied to patterned wafer inspection, mask/pellicle inspection, wafer edge inspection, and overlay.
